

# KEEP YOUR TEAM FOCUSED ON TURNAROUND PROCEDURE AND PROCESS COMPLIANCE

## **Toadfly STO is the capstone of project milestones.**

STO is a software application that manages turnarounds by creating standardized procedures and tracking processes across your organization. It uses global templates to establish milestones and develop tasks for various complexities, which improves reliability, accountability, and efficiency. You can add project milestones and tasks as required, and STO will notify parties of upcoming and overdue tasks via automated email.

STO also enables your organization to implement industry-proven best practices for predictable and desired outcomes. STO provides a repository to store deliverables and internal practice documents related to processes and procedures.

## Key Features

- Customizable milestones and tasks
- Complexity Matrix
- Document hub and internal practice repositories
- Enterprise level and site level reports
- Project dashboard
- Update tasks and milestones all on one page
- Reminder for upcoming and overdue tasks

## Project Dashboard

STO's Project Dashboard provides greater status visibility and drives efficiency. And it lets you schedule and monitor automated emails that notify parties of upcoming tasks and events.

The strength of our software comes from its ability to be tailored to your exact needs and specifications. We provide our customers with more efficient analytical tools that streamline their processes, reduce costs, and add value to their bottom line.

Contact Toadfly today for a free customized demo of Toadfly STO and our full suite of products and services that increase your productivity and profitability.
